

Environmental Policy

October 2003

Tecfor Resources Ltd. (Tecfor) recognizes environmental management as the highest company priority and as a key determinant to sustainable development. It is our company goal to establish policies, programs, and practices for conducting consulting services in an environmentally responsible manner.

Tecfor is committed to:

-  Conducting business in a manner that ensures long-term productivity and the conservation of resources.
-  Promoting sustainable resource management practices that are economically and environmentally responsible.
-  Protecting the health of ecosystems, their productivity, and lands of special significance.
-  Preventing pollution, and striving for continual improvement of our company policies, programs and environmental performance, while taking into account technical developments, scientific understanding, consumer needs and social expectations.
-  Regularly reviewing our practices and procedures to monitor, report and communicate our environmental performance.
-  Allocating sufficient funds to ensure all applicable environmental regulations are met or surpassed.
-  Educating, training and motivating employees to conduct their activities in an environmentally responsible manner.
